

OilSafe

Grease Fitting Kit

1/4" (6.4 mm) – kit A

Part # 900901

The OilSafe pre-configured, 3 color Grease Fitting Protector Kits come in **Blue, Purple and Red**.

This OilSafe color-coded system enables the dedication of a specific color to a specific grease. And with space for labeling the GFP clearly identifies which grease is required for the fitting.

Create your own custom 0.5" labels or choose from our selection of matching pre-printed 0.5" label kits.

OilSafe Grease Fitting Protector Kits come in various sizes (1/4", 13/32", 17/32") and suit most common grease fittings.

- Pre-assembled kits include 80 pieces of each color. (240 pieces)
- Use as part of the OilSafe fully integrated, color-coded visual fluid management system.
- Recessed head for secure label placement.
- Innovative design ensures easy removal from zerk fitting — even when wearing gloves.
- Durable industrial grade materials.
- Makes grease fittings easy to locate.

Weight: 1.04 lb / 0.472 kg
