TRADITIONAL PRACTICES

Traditional Lubricant Storage & Handling Practices are...

"By the time you can see or feel the dirt in the oil, much damage to your machine has already been done."

Jim Fitch, Noria Corporation

- **Filthy**
- **Disorganized**
- **Unsafe**
- **Wasteful**
- **DESTRUCTIVE**

Modern Lubricant Storage & Handling Practices are...

- **Clean**
- **Organized**
- **Safe**
- **Efficient**
- **RELIABLE**

"With managerial support for training, improvements in storage and handling, and continuous improvements in lubrication procedures and practices… lubrication improvements can deliver strong financial rewards for relatively few dollars invested."

Ed Bohn, Plant Lubrication Specialist, General Motors
Excerpt from "GM Invests in Lube Program Upgrades"
Machinery Lubrication

THE VISUAL LUBRICATION SYSTEM™ LEADER

OilSafe®

What is the OilSafe Visual Lubrication System?

A fully integrated and color-coded fluid management system developed to enable the systematic and standardized delivery of well identified and clean lubricants from bulk storage to the point of application on equipment.

The System emphasizes color-coding, identification, standardization, workplace organization and cleanliness, safety, waste reduction, contamination control, and a propensity for best practice in the following areas:

- Bulk Storage & Handling
- Transfer Equipment
- Identification
- Spill Containment

Integrate OILSAFE products to manage your fluid transfer from bulk storage to point of use. Our **Visual Lubrication System** of products combines to identify, protect and reduce machinery downtime.

System Benefits

The System delivers immediate and substantial improvements in workplace lubrication practices, efficiency and productivity, reduces waste and significantly contributes to equipment uptime. The system maintains a focus on ensuring the 5Rs of lubrication are satisfied between bulk storage and the point of application;

- **The right product**
- **The right place**
- **The right amount**
- **The right time**
- **The right attitude**

Find Out More

There are various best practice solutions for you to choose within this catalog. When combined, these solutions enable the creation and implementation of a world-class lubricant bulk storage to point of application system that can be standardized across facilities with the flexibility to meet particular application requirements and budget.

OILSAFE has proven expertise in developing and customizing storage, transfer and identification solutions.

For more information and assistance, contact your local representative.

CONTINUOUS IMPROVEMENT IN THE WORKPLACE

Industry today is under intense pressure to reduce costs, do more with less and comply with increasingly demanding regulations.

OILSAFE recognizes these pressures such as OSHA **Right-to-Know** laws and also the continuous improvement opportunities represented by proven concepts, such as **5S** and **LEAN**, that manufacturers around the world are endeavoring to implement in their facility, to address workplace challenges and extract additional profits from operations.

When identifying opportunities for clients to extract profits and reduce costs within their lubrication program, OILSAFE strives to develop innovative best practice solutions that enable concepts, such as **5S** and **LEAN**, to be practically and rapidly implemented on the shop within a facility. This ensures our products add value to the process and remain consistent with the overall continuous improvement methodology management is seeking to implement across their operations.

5S

5S is a continuous improvement methodology originated in Japan that is focused on effective workplace organization. The key targets of 5S are workplace morale, safety and efficiency, with effective implementation simplifying the work environment, reducing waste and non-value activity, while improving quality, productivity, and safety. **5S represents Sort, Set, Shine, Standardize and Sustain.**

How Does OILSAFE Help?

The OILSAFE **Visual Lubrication System** provides a comprehensive offering to enable the rapid introduction of 5S practices into the workplace. Our color-coded products and storage systems provide for an orderly workplace, that is clearly identified, systematic, safer for workers, and improves a worker's pride in their craft by giving them the right tools for the job where and when they need them.

LEAN

Derived from the Toyota Production System, LEAN manufacturing is a production practice that considers the expenditure of resources for any goal other than the creation of value for the end customer to be wasteful, and thus a target for elimination.

How Does OILSAFE Help?

With a focus on efficiency and waste elimination, LEAN objectives are more easily achieved with the OILSAFE **Visual Lubrication System.** Our solutions deliver greater productivity through improved equipment reliability, sensible storage solutions that provide ease of access to equipment in the facility, and purpose built equipment that eliminates contamination and makes the job easier, faster, safer and cleaner.

Right To Know

Right to Know is an OSHA regulated requirement focused around the principle that workers have the right to know the fluids that they may be exposed to in the workplace.

How Does OILSAFE Help?

To deliver on this requirement, workplace containers must be clearly labeled to identify the contents. The premise is that if a worker does not know what is in a container, they do not know if it is safe to handle. While most companies have adequate labeling on their bulk storage, most have no or inadequate labeling on their transfer containers. The OILSAFE **Visual Lubrication System** incorporates Identification Labels, which provide innovative industrial grade labeling solutions for bulk storage to point of application equipment that can be quickly and easily supplied and installed to address this issue.

OilSafe®

OIL TRANSFER EQUIPMENT

Transfer Containers & Lids 8

OILSAFE dispensing containers and color-coded lids have been tried and proven in the toughest work environments. They are durable, easy-to-use, efficient and safe.

Pumps & Pump Accessories 10

Pumps and accessories for the OILSAFE containers.

Transfer Container Accessories & Spare Parts 12

Extend the operational life of OILSAFE containers with these accessories and spare parts.

Barrel Equipment 13

For easy and efficient dispensing of oils and fluids from barrels.

Sight Glasses & Fluid Analysis Systems 13

Easily and accurately monitor fluid levels and quality.

OILSAFE® TRANSFER SOLUTIONS

OILSAFE is the oil transfer solution preferred by leading companies around the world.

People often go to great lengths to preserve the quality of their oil, only to contaminate it by using filthy containers, pouring it through a dirty funnel or inadvertently mixing it with different oil.

The color-coded range of OILSAFE containers provide:

- A fully sealing unit that prevents contaminants from getting into the oil
- Easier dispensing without the need for secondary tools such as funnels

Open top, unsealed, homemade containers deliver contaminated lubricants into the heart of your machinery.

OILSAFE Visual Lubrication System of Products:

By **color-coding your lubricants and integrating** with our OILSAFE identification products you'll prevent cross contamination and misapplication of oils.

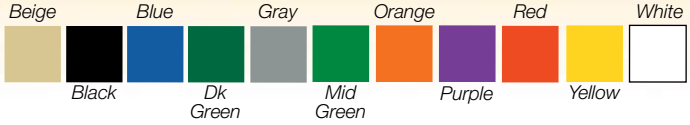
With 5 different lid types designed to fit each of the 5 different drum sizes, you can mix and match the components to build heavy duty durable containers that meet your oil transfer requirements.

Integrate **OILSAFE** identification products to manage your fluid transfer from bulk storage to point of use. This portfolio of products combine to form the revolutionary.

Visual Lubrication System that protects lubricants from contamination, reduces machinery downtime, and minimizes dangerous and costly spills.

These OILSAFE products are available in 11 colors:

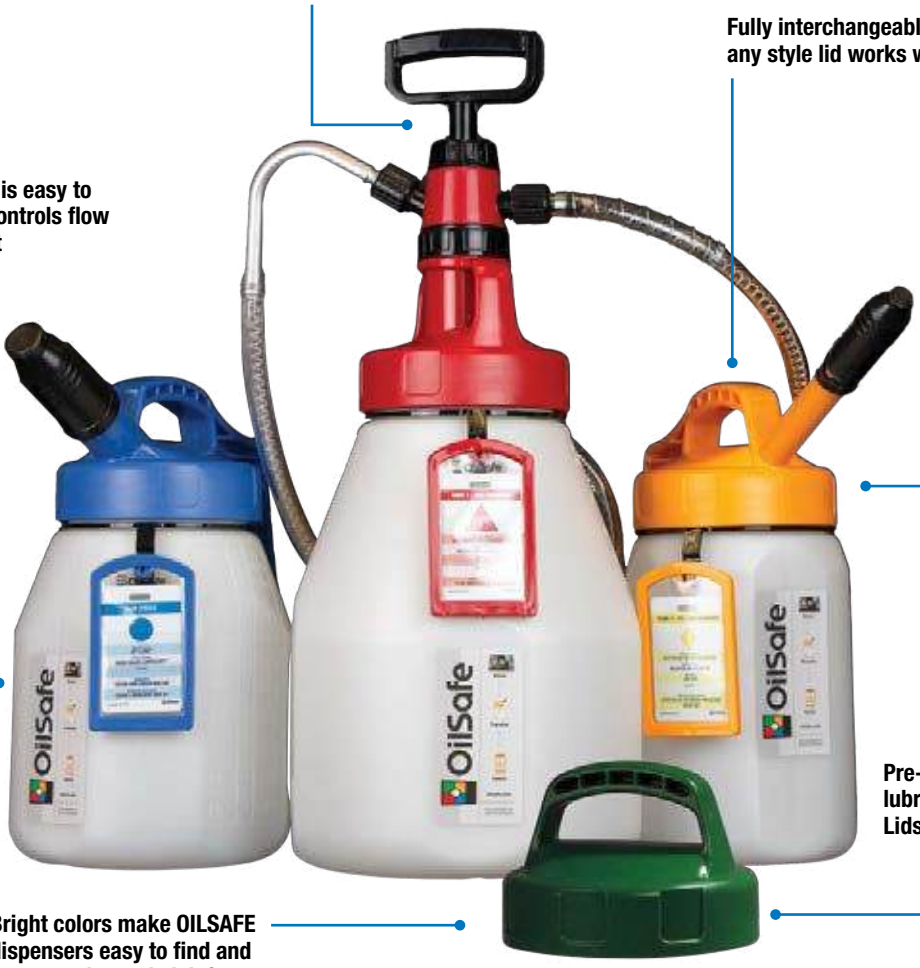
Utility Lid, Stretch Spout Lid, Mini Spout Lid, Stumpy Spout Lid, Storage Lid and Premium Pump.



OILSAFE down-stroke pump delivers 1 liter with approximately 12 strokes

Fully interchangeable drums and lids - any style lid works with any size drum

Quick twist spout is easy to open and close. Controls flow and keeps dirt out



See-through drums with graduated markings make it easy to see and measure liquid levels

Robust lid design for easier handling

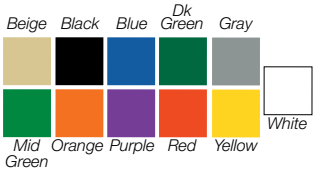
Pre-fill drums and safely store lubricants with OILSAFE Storage Lids

Bright colors make OILSAFE dispensers easy to find and easy to color-code lubricant grades

Transfer Containers & Lids

Mix and match lids and drums to get the right lubricant transfer container for the job.

Available in 11 colors:



STUMPY SPOUT LID

Ideal for engine and gear oils and when a higher lubricant flow is required.

The 1" spout opening on the OILSAFE Stumpy Spout Lids is the largest on OILSAFE spout lids. It's design is ideal for applications where a higher lubricant flow is required, such as for engine oils and gear oils.

Add a Stumpy Spout Hose Extension to help with awkward or hard to reach fill points.

PART # : 102021 – Stumpy Spout Hose Extension

PART #

100500 – Beige
100501 – Black
100502 – Blue
100503 – Dark Green
100504 – Gray
100505 – Mid Green
100506 – Orange
100507 – Purple
100508 – Red
100509 – Yellow
100511 – White

STRETCH SPOUT LID

When precise pouring of lubricants is required.

With a 0.5" spout opening and a longer spout the OILSAFE Stretch Spout Lid is ideal for lower viscosity oils (less than ISO 220) and is designed for hard to reach areas.

Add a stretch Spout Hose Extension to help with awkward or hard to reach fill points.

PART # : 102020 – Stretch Spout Hose Extension

PART #

100300 – Beige
100301 – Black
100302 – Blue
100303 – Dark Green
100304 – Gray
100305 – Mid Green
100306 – Orange
100307 – Purple
100308 – Red
100309 – Yellow
100311 – White

MINI SPOUT LID

Ideal for equipment with small fill holes.

The OILSAFE Mini Spout has an outlet diameter of approximately ¼" (7mm), making it ideal for lubrication jobs where equipment fill holes are small such as constant level oilers and machine tools.

PART #

100400 – Beige
100401 – Black
100402 – Blue
100403 – Dark Green
100404 – Gray
100405 – Mid Green
100406 – Orange
100407 – Purple
100408 – Red
100409 – Yellow
100411 – White

PART #

100200 – Beige
100201 – Black
100202 – Blue
100203 – Dark Green
100204 – Gray
100205 – Mid Green
100206 – Orange
100207 – Purple
100208 – Red
100209 – Yellow
100211 – White

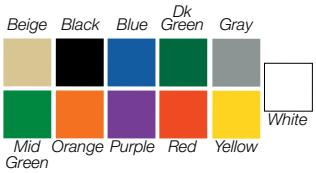
UTILITY LID

Ideal for topping off crank cases and gearboxes.

Multi-Purpose Utility Lid with large outlet hole (approx. 2") enables controlled fast pouring of lubricants.

The Utility Lid is designed to mate with an OILSAFE Standard or Premium Pump on a 3, 5 or 10 liter/US quart drum to take care of hard to reach and time consuming pumping applications such as gearboxes and transmissions.

Available in 11 colors:



PART #

100100 – Beige
100101 – Black
100102 – Blue
100103 – Dark Green
100104 – Gray
100105 – Mid Green
100106 – Orange
100107 – Purple
100108 – Red
100109 – Yellow
100111 – White

STORAGE LID

For on-site fluid storage and transporting applications.

With this lid, OILSAFE Drums can be pre-filled for safe storage and transport and can be located for easy and timely access to fluids where and when needed. A convenient alternative to handling bulky 20 liter/US quart drums. Advanced thread design ensures secure fully sealing fit on a 1.5, 2, 3, 5 or 10 liter/US quart drum.

PART #

101001 -
1.5 Liter/US Quart

101002 -
2 Liter / US Quart

101003 –
3 Liter / US Quart

101005 –
5 Liter / US Quart

101010 –
10 Liter / US Quart

DRUMS

Fully graduated in both metric and imperial to assist with measuring fluid volumes.

Tough, and comfortable to handle, these drums come in 5 different sizes and fully seal when fitted to any genuine OILSAFE Lid. The drums have an extra wide neck opening (4.7" / 120mm) for rapid pouring and easy cleaning. Made of industrial-grade material that withstands the toughest working conditions, the drums are designed to last and are available in 1.5, 2, 3, 5, or 10 liter/US quart.

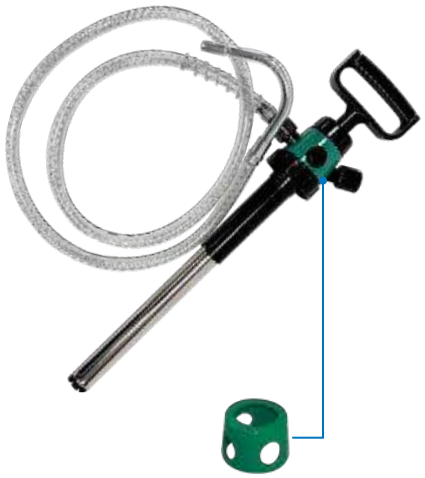
- Made of heat-resistant materials with UV additives
- Ultra-durable construction. Will not warp, leak, bend or break
- All Lids fit all genuine OILSAFE Drums

OilSafe®

Pumps & Accessories

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

DELIVERS
1 liter / 12 strokes



Color-coding is by way of a removable colored collar. See page 12

PREMIUM PUMP

Feature rich and will handle up to ISO 680 fluids.

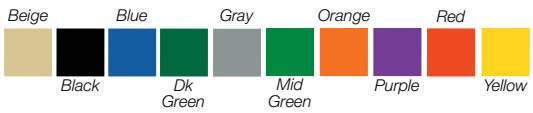
Sharing the unmatched efficiency and reliability of the OILSAFE Standard Pump, this heavy duty discharge pump is color-coded, has an ultra comfortable D handle grip design and has fully serviceable internals for maximum life.

Supplied standard with a 5 foot anti-drip outlet discharge hose and color-coded Body Collar, this pump can also be easily converted for quick connect use. Quick connects enable the container to be filled through the stainless steel pump body (without removing the lid) and also enables attachment to machinery fill points by quick connect via the pump discharge hose. Quick connect Kits and replacement parts are available.

Premium Pump comes standard with Viton® O-Rings for oils where solvent content may be higher.

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

For smaller fill hole applications add a Pump Reducer Nozzle accessory to the outlet nozzle. See page 12.



PART #

102300 – Beige
102301 – Black
102302 – Blue
102303 – Dark Green
102304 – Gray
102305 – Mid Green

102307 – Purple
102308 – Red
102309 – Yellow

DELIVERS
1 liter / 12 strokes

STANDARD PUMP

PART # 102000

General purpose pump will handle up to ISO 460 fluids.

This high quality down-stroke discharge pump is perfect for quickly and easily accessing hard to reach and time consuming top up points such as gearbox and transmission applications. Supplied with a removable discharge hose for easy cleaning and drainage, the pump delivers 1 liter for approximately 12 strokes.

Match with an OILSAFE Utility Lid and a 3, 5 or 10 liter/US quart OILSAFE Drum.

Supplied with 5 foot Removable Discharge Hose with a hook outlet nozzle. The anti-drip nozzle is made of aluminum and fits ½" and larger fill holes.

For smaller fill hole applications add a Pump Reducer Nozzle accessory to the outlet nozzle. See page 12.

PART #

920206 – 5' Hose
Anti-drip hook outlet

920207 – 10' Hose
Anti-drip hook outlet

920208 – 5' Hose
1/4" NPT male end

920209 – 10' Hose
1/4" NPT male end

DISCHARGE HOSES

For on-site fluid storage and transporting applications.

Available as a replacement 5 foot hose or in a 10 foot version for when longer reach is required, these Discharge Hoses screw easily to OILSAFE Standard and Premium Pumps.

Available in two types:

- Anti-drip hook outlet – for discharging lubricants into open fill points ½" and larger. Available in 5 foot and 10 foot. Custom lengths available on request.
- ¼" NPT Male end – for fitting quick connects. Available in 5 foot and 10 foot. Custom lengths available on request.

PART #

920220 – 5' Hose

920225 – 10' Hose

PREMIUM PUMP QUICK CONNECT KITS

No need to remove the lid!

Configure the OILSAFE Premium Pump for operation with quick connects. This enables the container to be filled by quick connect through the pump body (no need to remove the lid) and also enables attachment to machinery fill points by quick connect via the pump discharge hose. No mess, no contaminated oil top ups.

Kit contents:

- Discharge hose (available in two lengths) with ¼" NPT male adapter for fitting of your preferred female quick connect
- ¼" NPT Male adapter for pump return port for fitting of your preferred male quick connect
- 10 Micron Breather fits to Premium Pump accessory port providing contaminant free air intake when using quick connects

Note: Does not come supplied with male or female quick connects.

PART #

920250 – 10 Micron

920255 – 3 Micron

PREMIUM PUMP BREATHERS

Protection against airborne contaminants during the pumping process.

Available in two different sizes these breathers screw into the accessory port on OILSAFE Premium Pumps. Choose from the 10 micron baffle breather (shown in photo) or 3 micron trap breather.

The 10 Micron Baffle Breather is included with the Premium Pump quick connect Kits.

Transfer Container Accessories & Spare Parts

Enhance and extend the operational life of your OILSAFE containers with these accessories and spare parts.

PUMP REDUCER NOZZLE - Suits both OILSAFE Standard and Premium Pump.

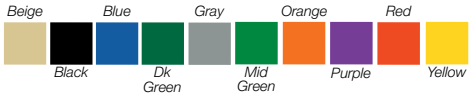
This Pump Reducer Nozzle accessory fits to the aluminium anti-drip discharge pipe on the outlet end of the Pump hose and reduces the outlet diameter down to approximately ¼", making oil top offs to very small fill points easy, simple, fast and clean.

PART #
102030

PREMIUM PUMP COLLARS
On-site Identification Systems

Premium pumps use, and come standard with, removable color-coded pump collars to support on site identification systems.

These pump collars can be replaced for service reasons, or should the color of the pump need to be changed.



PART #
920300 – Beige
920301 – Black
920302 – Blue
920303 – Dark Green
920304 – Gray
920305 – Mid Green
920306 – Orange
920307 – Purple
920308 – Red
920309 – Yellow

SPOUT VALVE KITS
Spare Parts

Twist top spouts on OILSAFE Lids provide for secure sealing of the containers and make it easy to get the lid into position for pouring without accidental spills. Replacement Spout Valve Kits are available and come with Nitrile O-Rings.

PART #
920200 – Mini
920201 – Stretch
920202 – Stumpy

UTILITY LID CAP
Spare Parts

Replacement Cap for OILSAFE Utility Lid.

PART # 920204

AIR BREATHER KIT
Spare Parts

Replace the auto-shut-off air breather button on OILSAFE Spout Lids. Comes complete with Nitrile O-Rings and suits Stumpy, Stretch and Mini Spout Lids.

PART # 920203

¼" NPT MALE ADAPTER
Secure and robust fitting for quick connects

For use with OILSAFE Premium Pump this brass fitting provides for secure and robust fitting of quick connects.

PART # 920260

EXTENSION SLEEVE - PUMP
Spare Parts

OILSAFE Pumps (both Standard and Premium) are provided with Extension Sleeves enabling the pumps to reach the bottom of 10 US Quart Drums.

This replacement Extension Sleeve comes standard with a Nitrile O-Ring.

PART # 920205

O-RING KITS
Spare Parts

Replace the seals on your OILSAFE equipment with these pre configured kits. All OILSAFE products, except the Premium Pump, come standard with Nitrile O-Rings.

Consider Viton® O-Ring seals for synthetic oils where solvent content may be high.

O-RING KIT DESCRIPTIONS	PART # NITRILE	PART # VITON®
Main Lid Seal	920000	920100
Mini Spout Lid – replace all four O-Rings in a Mini Spout Lid	920001	920101
Stretch Spout Lid – replace all four O-Rings in a Stretch Spout Lid	920002	920102
Stumpy Spout Lid – replace all four O-Rings in a Stumpy Spout Lid	920003	920103
Stretch Hose Extension	920004	920104
Stumpy Hose Extension	920005	920105
Pump Sleeve – for Standard and Premium OILSAFE Pumps	920006	920106
Premium Pump	N/A	920007

BARREL EQUIPMENT

For easy and efficient dispensing of oils and fluids from barrels.

PART # 950000

LEVER ACTION BARREL PUMP

Ideal for oil and oil based fluids.

DELIVERS
1 liter / 12 strokes

Designed to fit containers ranging in size from 15 gallon (50 liters) through to 55 gallon (205 liters), this popular lever action pump is engineered for professional use. Ideal for oil and oil based fluids the pump has:

- A plated steel lever handle with rubber grip for convenience
- Built in 1.5" and 2" bung for use on drums with either opening
- Premium powder coated steel pump body with ribbed section aluminum die cast pump head for maximum strength
- Curved metal spout and telescopic suction tube

With a non return **Viton®** seal the pump can also be used with antifreeze, solvents, thinners, automotive additives, industrial chemicals and other non corrosive liquids. It is not suitable for water based fluids, gasoline and corrosive media.

PART # 950020

ROTARY BARREL PUMP

Ideal for use in industrial & automotive applications.

DELIVERS
1 liter / 12 strokes

This heavy duty rotary barrel pump has an aluminum die cast body and includes a 2" cast iron bung adaptor and die cast aluminum handle with security locking latch.

- Complete with a 3 pc threaded suction tube for use on 15 gallons (50 liter) – 55 gallons (205 liter) barrels
- Recommended for use with lubricating oils up to SAE 30, gasoline, diesel fuel and kerosene.
- Do not use – with corrosive liquids, solvents, acids, alkalis etc
- 1.8 m PVC nitrile delivery hose with metal nozzle, spring and hose clamp

WARNING!	**Never operate the pump near fire or source of spark. Some media may be explosive and dangerous to pump.**

PART # 950150

DRUM OPENER

An easy and convenient tool to open almost all types of drums.

- Ends of the wrench are designed to fit perfectly onto most 2" and ¾" Drum Plugs
- Compact design for easy storage, the opener is manufactured from cast aluminum, hardened and tempered for increased strength

SIGHT GLASSES AND FLUID ANALYSIS SYSTEMS

Viton® O-Ring only with BSPP & Metric size sight glasses.

Quick and easy condition assessment of your equipment's vital fluids to help insure cleanliness, reducing downtime and maintenance costs.

The easy-to-install and access fluid analysis system and sight glass gives you greater insight into the status of fluids and helps your respond before major issues arise.

- Flat front sight glass with etched and painted crosshairs, allowing a clear view of fluids without distortion
- Recommended Temperature: -40°F to 200°F (-40°C to 93°C)
- UV-resistant to protect against long-term sun exposure
- Shatterproof, stain-proof and chemically resistant
- Fluid Analysis System
  - Dimensions - 2.75" x 3.18" x 3.5" (w x h x l)
- Large Tritan™ sight glass with 1.4" diameter x 1.25" deep viewing area
- Aluminum body
- Steel Adapter
- Standard flow sampling valve with stainless steel pilot tube
- Magnetic plug
- M16 x 2 sample port threads for attaching to vacuum pump and sample bottle
- Steel corrosion indicator
- Viton® o-ring

OilSafe®

GREASE EQUIPMENT

Grease Guns 16

Innovative, high quality OILSAFE color-coded grease guns.

Grease Gun Tubes 17

Clear and steel tubes are available in 10 colors as spare parts for converting your existing grease guns.

Grease Gun Accessories 18

Use these innovative, high quality accessories to enhance the usability of OILSAFE grease guns.

Grease Gun Meter & Grease Filler Pump 19

Grease more precisely with a grease meter and protect bulk grease pails from contamination and dispense the grease into grease guns with this grease pump.

Grease Gun Cartridge Accessories 20

Protect grease cartridges from accidental damage with innovative cartridge protection.

Grease Fittings, Accessories & Protectors 22

High quality grease fittings in a variety of sizes and styles. Protect, maintain and replace grease fittings with this suite of tools and grease fitting protection products.

RED

OilSafe®

COLOR-CODED STEEL AND CLEAR GREASE GUNS & TUBES

Color-Coded Grease Guns enable accurate identification of a lubricant by providing visibility of the installed cartridge or the grease level if bulk filled.

Steel Pistol Grip

Clear Pistol Grip

PISTOL GRIP GREASE GUN

This heavy duty, top of the line grease gun is designed for one handed operation and ideal for use in confined spaces where access to grease fittings is restricted. The pistol grip prevents fingers from pinching and includes a soft rubber handle grip for comfort.

- 3-way packable (suction, cartridge or filler pump)
- Super strong pistol grip handle with soft rubber grip
- Pistol grip design prevents fingers from pinching
- Develops 5000 PSI / 345 BAR
- Provided with both a 4" steel extension and 12" flexible extension

Air Breather & Bulk Loader on all color-coded guns.

Steel Lever Grip

Clear Lever Grip

LEVER GRIP GREASE GUN

Variable stroke lever action for greater control of delivery – especially in tight working spaces.

This heavy duty, top of the line grease gun is designed for punishing day-in and day-out heavy industrial applications.

- 3-way packable (suction, cartridge or filler pump)
- Have capacity for 14 oz (400gm) cartridges or will fit 500cc bulk filled
- 1/8" NPT threads
- Soft rubber grip for non-slip operation
- Develops 10,000 PSI / 690 BAR
- Provided with both a 6" steel extension and 12" flexible extension.

GREASE GUN ACCESSORIES

Use these innovative, high quality accessories to enhance the usability of OILSAFE Grease Guns.

GREASE GUN LABEL WRAP

In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

One of the greatest challenges in lubricating with grease guns is identifying what grease is inside the gun. The OILSAFE color-coded grease guns and clear grease guns are an excellent starting point; but when more information is needed the OILSAFE Label Wrap enables secure attachment of a label and protects the label from damage.

The clear and durable Label Wrap uses a OILSAFE Label Pocket to place and provide the first layer of protection for the label. In addition to grease guns. Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

OILSAFE's Label Wrap is available in two styles. The **Removable** version clamps into place but can be easily removed for reasons such as cleaning the gun or changing the label. The **Bonded** version clamps on and is securely held in place by adhesive strips.

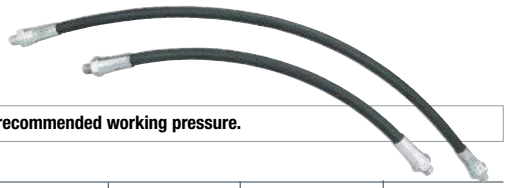
FLEXIBLE GREASE HOSE

Easier access to hard to reach fittings.

Fit flexible hoses to OILSAFE grease guns and allow easier access to fittings that are hard to reach. Available in two lengths.
Also consider the heavy duty spring guard for extra rigidity to the coupling end of the hose, allowing added safety and convenience in fitment – particularly effective when working with grease control valves.

May be used on hand operated or air operated grease guns.



WARNING! **Never use beyond recommended working pressure.**

LENGTH	FITTING SIZE	SPRING GUARD	WORKING PRESSURE	BURST PRESSURE	PART #
Heavy Duty Hose					
12"	1/8" NPT	No	5800 PSI	13775 PSI	331020
18"	1/8" NPT	No	5800 PSI	13775 PSI	331021

PART # 330999

SPECIFICATIONS:

Working Pressure:
Max 70 psi - 10,000 psi

Flow:
Max 1000 cm^3/min

Measuring Accuracy:
+/-3%

Battery:
2 x 1.5V LR1

Grease Consistency:
Up to NLGI 2

Weight:
0.7 lbs (0.3 kgs)

GREASE METER

Maximize bearing life.

With this Grease Meter it is possible to grease precisely according to the bearing manufacturer's recommendations. Can be calibrated to ensure accurate measurements.

Fit this grease meter to your OILSAFE Grease Gun and push the button to zero before each application. The result is shown in large (11/32" – 9mm) and clear digits and the meter can be backlit for operation in darker areas.

The meter includes a re-setable total-counting mechanism and will fit with any of the OILSAFE flexible hoses or steel extensions. The meter housing is made of anodized aluminium and has 2 x ISO- R 1/8 female fittings.

BACKLIT

360 DEGREE SWIVEL GREASE COUPLER, 3 JAW CONST. 1/8"

PART # 350125

PART # 331440

GREASE FILLER PUMP

No mess or waste. Get the benefits of buying grease in bulk and prevent contamination with this easy to use Grease Filler Pump.

Quickly, cleanly and easily load OILSAFE and other guns with bulk filler points. The female load adapter on this pump will adapt to both American (0.58") and European Straight (9mm) loader fittings.

Recommended Use:

- For grease up to and including NLGI 2
- Designed for use with 25-50lb / 5 gallon grease pails

WARNING! **Never exert undue pressure on the lever handle.**

QUICK LOCK COUPLER HIGH PRESSURE 1/8"

PART # 350130

GREASE GUN HOLDERS

Safe storage of grease guns.

Standard Grease Gun Holder

- For use with color-coded 14 oz steel body guns
- Simple snap action clamp mounts on almost any surface

PART #: 331160

Heavy Duty Grease Gun Holder

- For use with ALL OILSAFE Grease Guns
- This heavy duty holder has a strong spring and mechanism that will hold secure in high vibration environments

PART #: 331161

GREASE GUN CARTRIDGE ACCESSORIES

Preserve the integrity of the grease and avoid damage to grease cartridges, which can cause grease gun malfunctions.

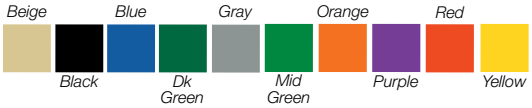
CARTRIDGE PROTECTION TUBE

Protects grease cartridges against damage / weather, preserves the integrity of the grease and avoids damage to grease cartridges that cause grease gun malfunctions.

OILSAFE tubes provide a clean, safe method of transporting cartridges from vehicle or shop to the point of use and enables the safe and clean return of used grease cartridges from the work site or work vehicle for safe and environmentally responsible disposal.

To withstand the toughest conditions, the Cartridge Protection Tube has an in-built label holder and is transparent for quick and easy identification of contents so that you can be sure that the correct grease is inserted into the correct grease gun every time.

Available in 10 colors:



Tubes are supplied standard with a black hanging hook and black Outdoor Paper Content Label.

GREASE FITTING ACCESSORIES

A selection of tools to maintain your grease fittings

4 WAY GREASE TOOL

Handy, dual purpose tool

Remove worn and broken grease fittings as well as re-tapping holes for installing new grease fittings.

Works with both straight and angled fittings and is available in small and large sizes for use on almost all threaded fittings.

- For installing straight grease fittings
- Screw extractor for removing worn & broken grease fittings
- For installing angled grease fittings
- Hardened tap for re tapping holes

ITEM	HEX SIZE	TAP RE THREADS	PART #
4 Way Grease Tool — Small	5/16" (7mm)	1/4" - 28	331401
4 Way Grease Tool — Large	3/8" (9mm) 7/16" (11mm)	1/8" - 27	331400

GREASE FITTING UNBLOCKER PROFESSIONAL

PART # 331425

Opens clogged grease fittings and loosens hardened grease joints.

Excellent for maintaining & protecting bearings, control arms, joints, king pins, etc.

Tool has an all steel construction and is designed to be tapped with a hammer to force a light viscosity oil through the tool into the coupler finally into the grease joint, breaking up and removing dirt and debris.

Comes complete with grease coupler for connection onto the grease fitting and hose for hard to reach fittings.

"DRIVE FIT" GREASE FITTING INSTALLERS

PART #

331410 – Straight

331411 – Angled

Specialty tools for installing straight and angled Drive Fit grease fittings into untapped holes.

Heavy duty steel construction with zinc-plated finish.

GREASE FITTING PROTECTORS

Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication.

OILSAFE Grease Fitting Protectors deliver a secure seal over most common grease fittings providing excellent protection against contamination. With 10 colors and space for labels the Grease Fitting Protectors clearly identify what grease is required for the fitting.

These innovative, patented protectors provide a number of benefits over traditional Zerk protectors, including:

- Use as part of the fully integrated, color-coded visual fluid management system
- Available in 10 colors
- Recessed head for label placement
- Innovative design ensures easy removal from Zerk fitting – even when wearing work gloves
- Durable industrial grade materials
- Available in various sizes and in pre-configured kit formats
- Makes grease fittings easy to find; Supplied in bags of 100

CLEAR PROTECTIVE LENS - PART # - 290999

These lenses fit securely into the top of Grease Fitting Protectors and ID Tabs providing a protective barrier above labels.

OilSafe®

IDENTIFICATION

Pre-Configured Kits 26

Cost effective kits.

Popular Labeling Solutions 28

Labeling solutions for different applications.

Identification & Label Wizard 30

A comprehensive suite of industrial grade content, custom and pre-printed labels to suit your lubricant labeling program.

Label Holders & Accessories 36

Purpose-built industrial label holders and accessories ideal for everything from lubricant bulk storage through to the fill point.

OILSAFE® IDENTIFICATION SOLUTIONS

Manage your fluid transfer from bulk storage to point of use. The OILSAFE unique Visual Lubrication System of products combines to identify, protect and reduce machinery downtime.

OILSAFE is the only industrial grade labeling system in the world that enables accurate lubricant identification from bulk storage to the fill point. In the process providing:

- **5S** – color-coded, identification and order
- **LEAN** – the right lubricant in the right fill point
- **Right to Know** – ensuring operators are aware of what they are handling

The fully integrated OILSAFE label system is comprised of two core components:

- **Labels** – available in various sizes, styles and materials
- **Label Holders** – many different types and combinations to address the challenges of securing labels in an industrial environment

Innovative, practical and durable, this fully integrated and color-coded labeling system also:

- **Ensures** the **right lubricant** goes into the **right machine** every time
- **Improves** OSHA compliance
- **Accommodates** inclusion of MSDS information at all steps of the lubrication process
- **Enables** consistent identification of bulk storage, intermediate containers and point of use
- **Flexible and suitable** for multiple workplace applications
- **Industrial grade, high quality** and suitable for outdoor use
- **Improves** productivity and efficiency
- **Increases** bottom line savings

How to Implement the OILSAFE® Labeling System

Customized & Standard Fluid Identification from Bulk Storage to the Point of Use

BULK STORAGE UNITS

The first step in the chain of custody. Ensuring that Lubrication Technicians can **clearly identify the lubricant they need.**

Solutions range from simple adhesive labels through to solutions that include complete MSDS information.

TRANSFER CONTAINERS & LIDS

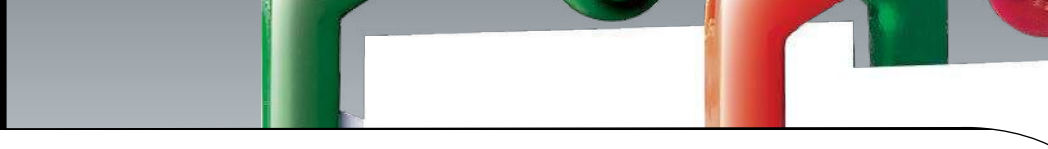
Cross contamination of lubricants can be just as damaging as dirt and water. **Match** the transfer container label to the bulk label to eliminate the potential for cross contamination, and ensure that employee's **Right To Know** entitlements are addressed.

POINT OF USE

Getting the **right lubricant** into the **right fill point** (contaminant free) is one of the simplest ways to reduce maintenance and operating costs.

Matching the container label to the fill point label is the final step.

OilSafe®



Pre-Configured Kits

These cost effective OILSAFE Kits enable first hand, on site evaluation of our unique visual lubricant labeling system.

DRUM LABEL KIT

The Drum Label Kit is designed to accompany your color-coded OILSAFE Lid, Drum and Label offering on site evaluation of the OILSAFE unique visual lubricant labeling system.

Each Kit includes a color-coded comprehensive selection of the products to work in conjunction with your color-coded OILSAFE Lid, Drum and Label:

- **5 Label Holder components;** 1 - 2 x 3.5 Label Pocket, 1 - Color-coded Label Pocket Frame, 1 - Lockable Drum Ring, 1 - Label Leash, 1 - Color-coded Drum Ring. These components combine to create two (2) pre-configured solutions for different labeling requirements and experimentation.
- **Guidance Sheets** – Best practice suggestions for common labeling applications

Experience the:

- **Versatility** – with multiple options for most situations
- **Durability** – of our heavy duty industrial grade components

Kits available in 10 colors to match your OILSAFE Lid, Drum and Label:

CUSTOM LABELS

We engineer custom labels and label systems for some of the world's largest companies. If the identification solutions above do not meet your specific requirements, consult with an OILSAFE Representative to find out how OILSAFE can help design and deliver your required labels to meet your unique needs.

ADHESIVE LABELS

OILSAFE Adhesive labels are made of heavy duty Polyester and have a permanent adhesive. The label material can resist water and most lubricants. Apply to a clean flat surface for best long term adherence.

WATER RESISTANT PAPER

With a paper-like texture enabling easy writing, these heavy duty labels have built-in protection against the rigors of industrial work places. Use with OILSAFE pockets and other label holding components for attachment to bulk storage, transfer containers and fill points.

LAMINATED CARD

Similar to credit cards in size and weight, these highly durable cards are made for the toughest work environments. Over laminated for additional protection of printed information these cards can be fixed with a OILSAFE leash or with heavy duty double-sided tape.

LABEL SIZE MATRIX

A variety of sizes to suit easy attachment of labels in the workplace.

SHAPE AND DIMENSION	APPLICATION	QUANTITY	WATER & TEAR RESISTANT	POLYESTER ADHESIVE	LAMINATED CARD
2" x 3.5"	Popular and practical sized label that provides for detailed information and fits most labeling applications.	Sheet of 10	●	●

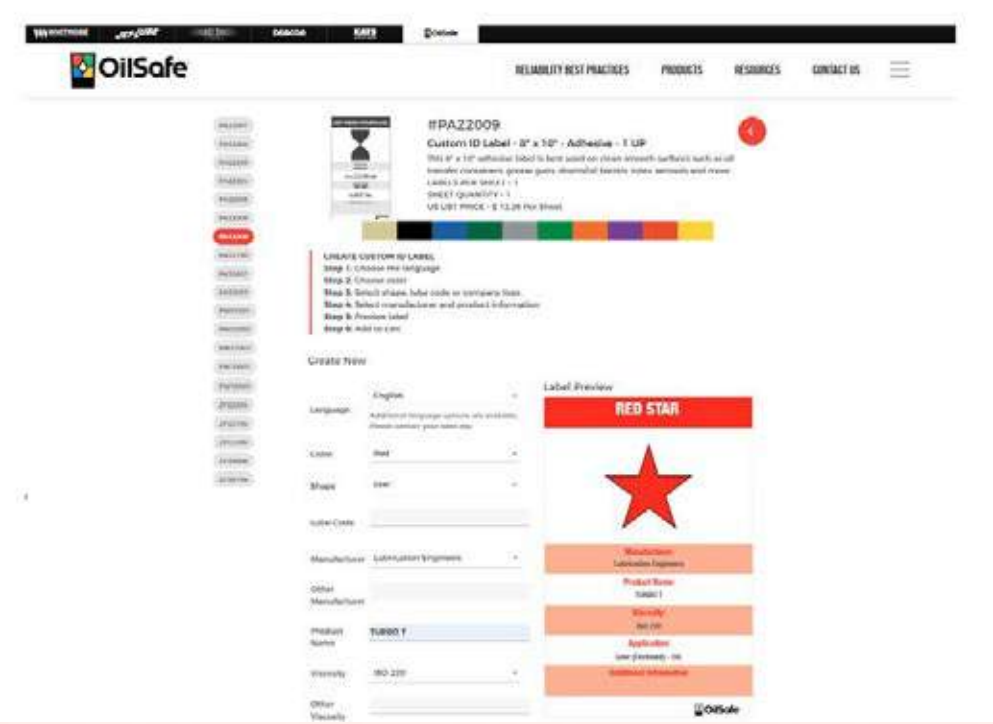
OILSAFE® LABEL WIZARD

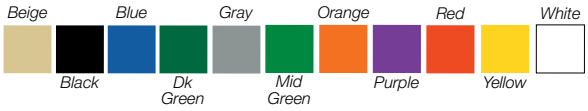
Custom ID Labels. You Create. OILSAFE Delivers.

OILSAFE's Label Wizard is a simple and intuitive web based platform designed to support online creation of labels and provide rapid supply of those labels to your door. A simple, fast and immediate solution to your fluid identification needs, OILSAFE labels are designed to ensure that the right fluid goes into the right machine every time.

Working in tandem with the OILSAFE range of label holding accessories OILSAFE labels form a fully integrated, color-coded solution for identifying bulk storage, intermediate containers and points of use on plant and machinery. Satisfying **Right to Know, 5S and LEAN** reliability objectives.



10 Colors:



10 Shapes:

Custom shapes or symbols are available upon request.

HOW TO CREATE OILSAFE CUSTOM ID LABELS

STEP 1: Choose a label type

Using the OILSAFE website Label Wizard, select the style, size and material of label appropriate for your application.
https://label-wizard.whitmores.com/

STEP 2: Choose a color and shape

Effective and accurate identification is best achieved through the use of prominent and unambiguous visual indicators. OILSAFE Label Wizard templates support the creation of a labeling system that uses color and shapes as the corner stone for identification and ensuring operators accurately match a lubricant to a fill point.

STEP 3: Complete your label

Complete some or all of the remaining identification fields in the label template to provide a greater level of information at the fill point or on a container. Particularly useful to help with OSHA **Right to Know** identification requirements.

STEP 4: Review and place the order

Once satisfied with the label design and contents, determine the quantity required and add to the cart for fast and efficient ordering.

STEP 5: Label Holders & Accessories

Make sure you have the right label holders to secure and protect your label.

Label Holders & Accessories

Label Holders are core components of the OILSAFE System and are used for protecting, presenting and enabling attachment of labels.

LABEL POCKET

Protects and secures labels

Pockets are available in 2 sizes, each pocket is double sided and accommodates content labels, card stock and other OILSAFE labels. Provides ample space for comprehensive identification information on transfer containers, bulk storage or fill points.

Made to withstand tough outdoor conditions, these pockets are a powerful tool in ensuring your employee's right to know is satisfied.

PART #

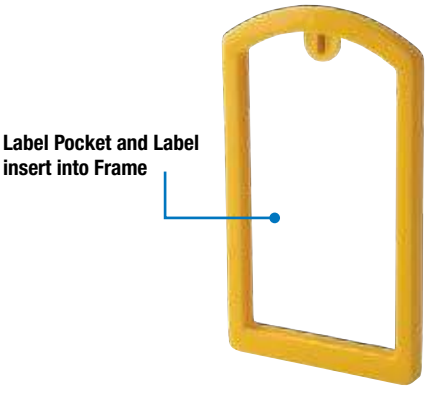
200101 – 2" x 3.5"

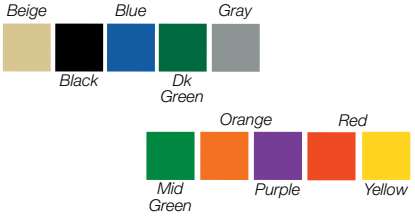
200102 – 4" x 3.25"

The larger size pocket is particularly effective for storing MSDS sheets as well as larger size labels

The 2" x 3.5" size pocket can be used in conjunction with Label Leashes and is a highly effective, economical way to label fill points

Leashes - see page 40





LABEL POCKET FRAME

Industrial grade color-coded Label Frames protect and identify

Color-coded Label and Label Pocket insert directly into the color-coded Frame, creating a highly visual, simple and reliable system for ensuring the right lubricant goes into the right machine every time.

Connect Label Pocket Frames to equipment via OilSafe Magnets, Clamps, Swivel Joints or Leashes, or on to OilSafe Drums via an OilSafe Drum Ring.

- Fits 2" x 3.5" Label and Label Pocket
- Industrial grade - protects Label and Label Pocket, suitable for outdoor
- Highly visual for color-coding - available in 10 colors
- Attach an OilSafe Magnet to the rear of the Label Pocket Frame for quick and replaceable labeling to metal surfaces such as; oil barrels, drums, totes, plant and equipment

PART #

200000 – Beige

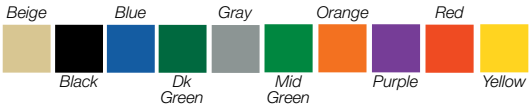
207009 – Yellow

COLOR-CODED DRUM RING

OILSAFE Color-Coded Drum Rings fit securely and easily to all OILSAFE Containers and provide clear and effective color-coding.

Adhesive labels are also available to enable more detailed identification. Options include "Contents" label with space for written information, or a custom label using the OILSAFE Wizard.

- Available in 10 colors
- Industrial grade with UV stabilizers and anti-static additives
- Recessed panel for Drum Ring label placement
- A hook for additional labeling options with leashes and pockets
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling



Recessed panel for label placement

Hook for hanging additional info

PART # 201001

LOCKABLE DRUM RING

Designed for OILSAFE containers, the industrial-grade Drum Ring provides a secure way of attaching Label Pockets & Frame.

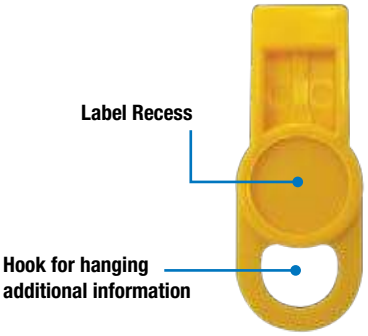
Use with multiple Label Pockets and color-coded Frame to identify container and lubricant, along with other information including MSDS and Right to Know.

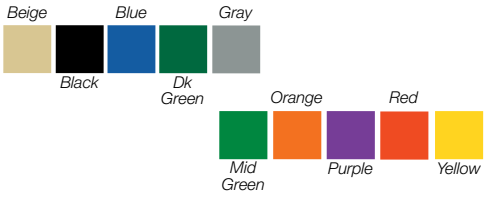
- Designed specifically for OILSAFE containers, attaches frame & multiple label pockets
- Ring held into place by secure locking lug and OILSAFE Lid
- Enables the quick and easy removal of the entire labeling assembly from the drum when the drum requires cleaning - unlike adhesive sandwich bag labeling concepts that leave messy residues and require constant replacement at the time of drum servicing or re-labeling

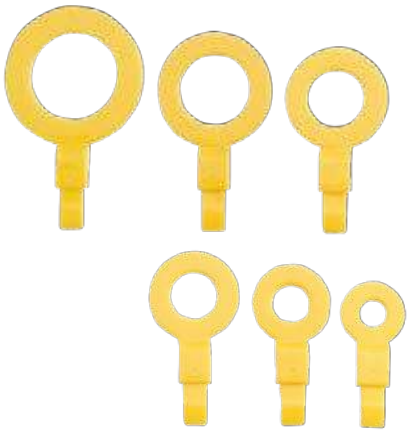
OilSafe®

Label Holders & Accessories

Label Holders are core components of the OILSAFE System and are used for protecting, presenting and enabling attachment of labels.







ID TABS

Ideal for Fill Points

OILSAFE ID Tabs provide durable labeling and fill point identification options when mated with a color-coded OILSAFE Fill Point ID Washer.

Available in 10 colors, identification can be achieved through simple color-coding or enhanced by the addition of a label into the label recess, or hanging by leash. **Supplied in bags of 6.**

Pre-printed labels are available for ID Tabs (see pages 33-34) or create your own with the help of your representative.

Swivel the position of your ID tab without removing it

Easily hang additional information from ID Tab

Clear Protective Lens (bags of 100)
Manufacturer Part # - 290999

FILL POINT ID WASHERS

OILSAFE Fill Point ID Washers enable durable and comprehensive color-coded identification of machine oil and grease fitting fill points.

Washers can be used alone for simple color-coding, or combined with OILSAFE components for more information at the point of use. **Supplied in bags of 6.**

- Temperature resistant, Chemical resistant
- Enables attachment of ID Tab which makes oil fill points easier to find on equipment
- Swivel Joint Accessory enables rotation into desired position for improved access and visibility
- Enables attachment of Label Clamps to provide for comprehensive identification information
- Available in 10 colors, enabling color-coding of fill points
- 6 BSP sizes - 1/8", 1/4", 3/8", 1/2", 3/4", and 1"

GREASE FITTING PROTECTORS

OILSAFE Grease Fitting Protectors save you the cost of equipment failures related to contamination or misapplication.

Grease Fitting Protectors deliver a secure seal over most common grease fittings providing excellent protection against contamination. Furthermore, with 10 colors and space for labels the Grease Fitting Protectors clearly identify what grease is required for the fitting.

These innovative, patented products provide a number of benefits over traditional Zerk protectors, including:

- Use as part of the fully integrated, color-coded visual fluid management system
- Available in 10 colors. Custom and pre-printed labels available, see pages 30-35.
- Recessed head for label placement
- Innovative design ensures easy removal from Zerk fitting – even when wearing work gloves
- Durable industrial grade materials
- Available in various sizes and in pre-configured kit formats
- Makes grease fittings easy to find and **Supplied in bags of 100**

CLEAR PROTECTIVE LENS - PART # - 290999

Bags of 100

GREASE FITTING PROTECTOR KITS

Enables you to dedicate a specific color to a specific grease.

OILSAFE Grease Fitting Protector Kits come in 3 color kits consisting of; Blue, Purple and Red, as well as 6 color kits consisting of; Black, Blue, Mid Green, Purple, Red and Yellow. This enables you to dedicate a specific color to a specific grease. Grease Fitting Protectors also come in various sizes to suit most common grease fittings. **See charts below for part numbers and sizes.**

OilSafe

Label Holders & Accessories

Purpose-built industrial label holder accessories, ideal for everything from lubricant bulk storage through to fill point labeling.

LABEL LEASH

PART # 202001

A better, more secure fit when attaching Label Pockets to containers, machinery, piping and other fittings.

- Use individually or combine to create a longer leash
- Can be easily removed and reused
- Industrial grade

POCKET FRAME LEASH

PART # 202002

Designed specifically for keeping the OILSAFE Pocket Frame and the Label Pocket tight & secure.

This Industrial grade, reusable Leash is designed for securing OILSAFE Pocket Frames to items such as: OILSAFE color-coded Drum Rings, OILSAFE ID Tabs and Grease Fitting Protectors.

- Attach Pocket Frames to containers, machinery, pipe and fittings
- Are for individual use only, i.e. DO NOT join with other leashes to make a longer leash
- Can be easily removed and reused

HIGH STRENGTH MAGNETS

PART # *203002*

Affixes frame to bulk fluid barrel or other metal surfaces.

High-strength, custom-built magnets fix label pockets and color-coded label frames to bulk fluid barrels, totes, storage racks, machinery, equipment, or any other metal surface. This enables operators to find what they need when they need it, while ensuring no misapplication of fluids occurs.

- High strength, Industrial grade.
- Snaps securely into label frame.
- Custom-built.

SWIVEL ID TAB

PART # 205001

Enables the position of the ID Tab to be adjusted for improved visibility or access to the fill point.

The OILSAFE Swivel Joint ID Tab mates with any size OILSAFE Fill Point ID Washer and an ID Tab to provide durable color-coded identification and labeling at fill points.

SWIVEL POCKET FRAME

PART # 205002

Provides detailed identification information at the fill point.

The Swivel Joint enables easy adjustment of the Pocket Frame position for improved visibility or easier access to the fill point.

ID WASHER LABEL CLAMP

PART # 204001

Enables comprehensive data matching to machinery fill points.

ID Washer Label Clamp fits to OILSAFE color-coded Fill Point ID Washer for comprehensive identification of equipment fill-points, air breathers, auto-lubers etc. Clamp in a Label Pocket and Label Pocket Frame, if desired.

- Snaps onto locating lug of OILSAFE ID Washer
- Accommodates Label Pockets and Frame
- Enables comprehensive information to be visible and accessible at the actual point of use

PART #

206000 – Removable

206001 – Bonded

LABEL WRAP

In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

One of the greatest challenges in lubricating with grease guns is identifying what grease is inside the gun. The OILSAFE color-coded grease guns and clear grease guns are an excellent starting point; but when more information is needed the OILSAFE Label Wrap enables secure attachment of a label and protects the label from damage.

The Clear and durable the Label Wrap uses a OILSAFE Label Pocket (page 36) to place and provide the first layer of protection for the label. In addition to grease guns, Label Wraps can also be used on pipes, auto-lubricators, air breathers, spray cans, barrel pumps and other suitably sized cylindrical objects.

OILSAFE Label Wrap is available in two styles. The **Removable** version clamps into place but can be easily removed for reasons such as cleaning the gun or changing the label. The **Bonded** version clamps on and is securely held in place by adhesive strips.

Once the grease gun is labeled with a Label Wrap simply match the label on the Grease Gun to the label on the cartridge or pail to make sure the right grease is loaded into the gun, then match the label on the gun to the label on the grease fitting to ensure that the right grease goes in the right equipment.

- Enable identification of Grease Gun contents
- Are clear and durable
- Come in two versions – Removable & Bonded
- Can be applied to a variety of cylindrical objects

Houses OILSAFE Label Pocket & Label

OILSAFE® STORAGE & HANDLING SOLUTIONS

OILSAFE's best practice, lubrication reliability solutions contribute to **5S**, **LEAN** and **TPM** improvement initiatives, and assist with addressing OSHA Right-to-Know and other workplace safety and environmental compliance issues. Our innovative bulk storage & handling systems ensure the **5Rs** of lubrication (Right Product, Right Time, Right Place, Right Attitude, Right Amount) are satisfied between the lube room and the point of application.

Traditional Method: Filthy, Disorganized, Unsafe, Wasteful and DE-STRUCTIVE

Modern Method: Clean, Organized, Safe, Efficient, and RELIABLE

Storage System Overview

Perfect for any workplace looking to instantly establish best practices by quickly ridding itself of antiquated bulk oil storage equipment and processes. OILSAFE Bulk Storage Systems will enable you to take immediate control over your lubrication workflow process and get your lubricant storage areas and practices clean, efficient and compliant.

Simply choose one of our standard or combined models and configure it to meet your specific workplace requirements.

Features & Benefits

- **Clean, Safe and Professional** storage and handling of bulk lubricants restores pride in the craft and drives workplace organization and efficiency
- **Choice of 4 Aluminum Tank** sizes; (30, 65, 120 and 240 gallons)
- **Scalable and Configurable –** scale system to accommodate the number of lubricants required for storage and dispensing
- **Choice of 11 Tank Colors & Custom Identification Labeling –** use colors and labels as part of a lubricant identification convention to ensure the right lubricant goes into the right transfer container and the right machine
- **Spill Control –** all systems come standard with integrated spill pans for SPCC compliance and overall environmental protection
- **Fire Safety –** includes MSHA accepted 811HT rated flame resistant fire suppression hoses as standard with auto-shut off tank isolation valves
- **Filtration –** all systems come with fluid filtration capability with a choice of micron ratings and also desiccant air breathers
- Accommodate lubricants **up to ISO 680**
- **All systems ship in fully assembled pods –** for efficient freight and rapid on-site installation
- **Transport –** all systems have integrated spill transport pallets for easy forklift and hand truck access for freight and workplace mobility

System Types & Features

The OILSAFE Storage & Handling Systems can be configured or customized to suit your application and budget.

There is no limit to the different configurations possible with the OILSAFE Storage & Handling Systems. The systems are fully modular and interchangeable, therefore, if none of the solutions shown in this catalog meet your requirements, contact an OILSAFE representative to custom configure a system that meets your project requirements and specifications.

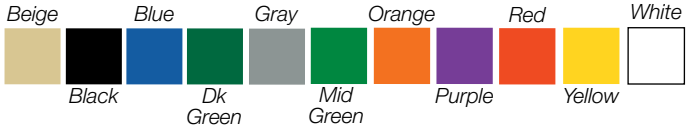
Lubrication Work Center & Advanced Bulk System Highlights

GENERAL FEATURES

- **Top Mounted Level Gauges** – easy and safe viewing of tank fill level
- **Retractable Cable Reel Grounding Kit & System Earth Lugs** – to mitigate static-electricity build up
- **Suitable** for storing machinery lubricating oils and glycol based coolants
- **Power** – systems come standard with 110V single phase TEFC motors and can be configured for other power supplies as required. Air pneumatic option available. (240V, 50/60 Hz, Pneumatic)

TANKS

Mix and match different tanks to meet your lubricant volume and identification requirements.



- **Color-coded** – choice of 11 colors for accurate lubricant identification
- **4 Standard Tank Sizes** – 30, 65, 120 & 240 gallons
- **Heavy Duty Construction** – 16-gauge aluminum for long life; TGIC polyester powder coated for additional durability
  - Ships in pre-assembled modules that are ready out of the box for fast and easy on-site installation and implementation
  - Integrated pallets are forklift and hand truck compatible, enabling easy transport into position, or moving to a new position if required
  - Modular design accommodates highly efficient road or sea freight anywhere in the world
  - Internal Tank Baffle and Re-enforced corns welds all tanks.
- **Identification** – Systems come standard with color-coded generic labels

CUSTOM ID LABELING

Fully integrated customized identification label upgrades are available upon request to assist with no mistake application, OSHA Right-To-Know Compliance and NFPA.

FLUID CLEANLINESS & CONTAMINATION CONTROL

Minimize lubricant contamination with:

- **In-line Filtration** – 3 way in-line filtration – filter every time you move the fluid – fill, recirculate & dispense
- **Desiccant Breather** – dedicated breather for each tank ensures cleanliness by removing airborne contaminants and moisture build up
- **Dispense** – clean oil from color-coded auto shut-off dispensing taps to transfer containers with minimal spills
  - Optional Hose Reels for dispensing to transfer containers and carts (Lubrication Work Centers and Limited Advanced Bulk System Configurations.)
- **Filling**
  - Dedicated components – each tank has its own pump, filter and suction tube with secure, clean colorized quick connects to eliminate cross contamination

COMPLIANCE

- **Fire Safety** – all systems come standard with MSHA accepted 811HT rated hosing and include auto-shut off tank isolation valves for superior spill protection in the event of fire
- **OSHA – Right to Know** – color-coded and labeled tanks and taps ensure accurate fluid identification and handling
- **EPA – SPCC** – systems come standard with integrated spill containment transport pallets for EPA SPCC compliance
- **Electrical Protection** – Lubrication Work Centers come with circuit breakers, surge protectors, motor overload protection, grounding kit & emergency shutdown for enhanced asset and personal protection

SPILL CONTROL

Multi-Tier Spill Control

- **Spill Pallets** – integrated spill pallets ensure compliance with EPA – SPCC legislation
- **Drip Trays** – removable drip trays collect accidental drips and spills that may occur when dispensing into transfer containers. Made of stainless steel for durable long life and ease of cleaning

How many lubricants do you need to store?

This will determine the number of tanks that you need _____

Complete the following table and questions

SYSTEM REQUIREMENTS *(Required for all Systems)*				CUSTOMIZATION *(Lubrication Work Center Only)*
Tanks	**Size (Gallons)** *(30, 65, 120 or 240)*	**Viscosity**	**Type of Fluid**	**Hose Reel** *(25')*
1				
2				
3				
4				
5				
6				
7				
8				
9				
10				
11				
12				
13				
14				
15				
16				

Max viscosity for all systems is ISO 680.

Systems include:

Enhanced Fire Protection and Fire Safety (standard) – All systems come standard with MSHA accepted 811HT rated hosing and include auto-shut off tank isolation valves.

Custom ID - Labeling Package (standard) – All systems come standard with ID Labeling to identify your lubricants.

Electric motors come with 110V or 240v single phase or pneumatic (standard) – If alternate required confirm:
Country the System will be used in _____

Accessories

Voltage _____ *Hertz* _____

BULK STORAGE CABINET

PART # 890150

The OILSAFE Bulk Storage Cabinet is designed to provide large capacity storage for lubrication tools and parts. The cabinet functions as either a standalone solution, or as a compliment to your OILSAFE Bulk Lubricant Storage System.

A rugged, workshop-ready solution, the OILSAFE Bulk Storage Cabinet enables immediate organization, storage and protection in one location for all of your lubrication reliability tools and shop floor products.

PART # 890151

Replaces bottom drawer with 76 gal spill pan.

Features

- **Workplace Organization (5S)**
- **Cabinet Dimensions: 45" (w) x 45" (d) x 88" (h)**
- **Four Big Deep Shelves -** for bulk storage of containers, sorbents, grease guns, filters, oil analysis equipment and other fluid handling shop equipment
- **Six Large Smooth Glide Drawers -** with removable parts trays for storage of fittings, tools, labels and parts
- **Removable Plastic Parts Bins** easily clip on and off internal racks to increase storage capacity and speed for small parts selection
- **All Welded, High Quality Powder Coated Cabinet** used as a standalone unit or can be easily adjoined with any OILSAFE Bulk Storage System
- **Ships Fully Assembled and Ready-To-Use!**

SUCTION HOSE STORAGE

After emptying drums, totes or pails, the suction hoses for the Advanced Systems and Lubrication Work Centers can be stored in the Mobile Hose Carts, on Wall Mounted Racks or if space permits on the side of your system with a Frame Mount Rack.

SUCTION HOSE STORAGE	
OPTIONS	**PART #**

Hoses and hose wands sold separately.

TANK OVERFILL ALARMS

Direct Mount Tank Overfill Alarms fit easily to Tank Level Gauges and can be supplied with your system or retrofitted to an existing OILSAFE Bulk Storage System.

PART #	OPTIONS
897102	Direct Mount Overfill Alarm (Audible & Flashing Light)

- Audible and Flashing Light
- **Can be reset** even while in alarm mode
- **Powered by a 9 volt Lithium Battery** (supplied with battery)
- **Audible Alarm 110 DB –** will get your attention
- **Test Switch** allows you to test the battery before each use

BULK SYSTEM FILTERS

β2000 Micro Glass anti-static filters are a premium filter that provides maximum dirt-holding capacity, and superior particle capture over paper filters.

Efficient operation with minimum pressure drop and high flow rate.

PART #	14.2" FILTER
469962	14.2" Filter Element β2000 - 4µ
469964	14.2" Filter Element β2000 - 7µ
469966	14.2" Filter Element β2000 - 25µ
469968	14.2" Water Removal Filter Element β2000 - 20µ

Z-134 DESICCANT BREATHER - 3.25" x 3.25"

One case (12) desiccant breathers.

Replace breather when orange gel turns green.

OPTIONS	PART #
Desiccant Breather - 3.25" x 3.25"	095Z134

HOSE REELS

PART # 8Z0225 – 25 ft Reel

Retractable Hose Reels with trigger operated dispensing nozzles. A ¾" diameter hose in 25' lengths allows dispensing to lubricant carts or other large containers.

Available with Lubrication Work Centers and limited Advanced Bulk System Configurations.

SPILL CONTAINMENT KIT

Increase Spill System Containment to be SPCC Compliant

Additional Storage & Bulk Handling Systems

LUSTOR™ LUBRICATION STORAGE SYSTEMS

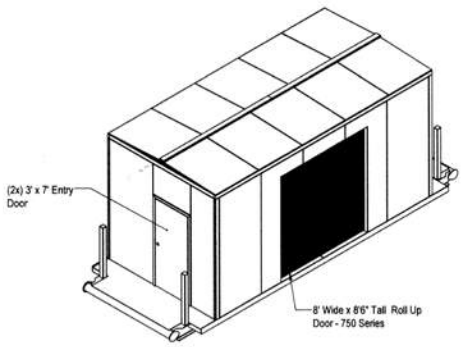
Lustor systems deliver the storage and dispensing benefits you trust, in cost-effective, compact and expandable units. Designed to protect every liter of oil from on-site environmental conditions, Lustor systems combine proper storage, filtration and identification to create an efficient and organized, workflow. This, in turn, ensures that your lubricants remain dry and contaminant-free before they enter your equipment. Specially designed for individualized and expandable lube rooms.

Two different system configurations are offered to fit your application needs and requirements, these are:

PART #	SYSTEM CONFIGURATIONS
LST0310	Wall Mount (no reservoir) for use with drum or tote
LST2310	65 Gallon (250 Liter)

Optional Upgrades/Add-ons:

- Custom Fluid ID Label - Part #PA22008LU
- 3 um Filters - LSTF3 or 20 um Filters - LSTF20
- Pneumatic 5:1 Pump options for Viton and Nitrile seals
- Lustor Spill Containment - LSTSCP
- Colorized Quick Connects
- IBC Spill Pallet



SATELLITE LUBE ROOM

When your lubricants are subject to remote or extreme conditions and interior space is limited, OilSafe's Satellite Lube Room offers a stand-alone system with placement flexibility and state of the art features. This convenient storage protects the lubricants quality and lifespan by reducing handling errors and controlling its environment. Add a Lubrication Work Center, Tote Dispensing Rack, Portable Filtration Cart and more to complete your room.

PART #	PRODUCT DESCRIPTION

744010	40' Premium SLR

FILTRATION UNITS

Extend the life of your industrial oils, saving you time and money. They maintain purity from storage to application and eliminate cross-contamination with color-coded/error-proof, flat face, zero-leak quick connects. Discover the cleanest and safest filtration systems on the market with three layers of spill containment to include a removable primary containment vessel, preventing spills and waste. Available in portable and stationary configurations.

PART #	PRODUCT DESCRIPTION
957700-BASIC	BASIC (Wall Mount Stationary)
957700-PRO	PRO (Wall Mount Stationary)
957750-NF1	BASIC (Portable - One Filter)
957750-NF2	BASIC (Portable - Two Filter)
957780-PRO	PRO (Portable - Electric)

** (For ADVANCED Filtration Units - reference pg 56 and 57, Tote Dispensing Rack and Fluid Handling Cart.)*

QUADCON™

Fully integrated remote bulk fluid storage and dispensing solution, engineered for durability and high performance in demanding environments. QuadCon is designed with a complete color-coded workflow to minimize human error and reduce costly downtime.

Deployable Design – Features integrated pallet construction for forklift compatibility, enabling easy transport by road or sea, ships pre-assembled for fast on-site installation and deployment

- **Customizable** – 65-gallon tanks offered in Red, Blue, Mid-Green, and Yellow—with Custom ID Labels
- **Durable Construction** - Built with powder-coated steel aluminum frames, color-coded durable tanks, and premium fittings
- **Certified Quality** – CSC Safety Approved Conex Box, and integrated spill containment that exceeds EPA SPCC standards
- **Advanced Features** - Includes 3-way inline filtration, an automatic shut-off dispensing station, and enhanced fire safety with MSHA accepted 811-HT rated hoses and emergency gravity-feed valve

PART #	PRODUCT DESCRIPTION
1Q0400A	QuadCon Bulk System 4 x 65 Gallon
Q0400AQ	QuadCon Bulk System 4 x 65 Gallon w/ Conex Box

Optional Add-ons:

- 102105 - Push Package Resupply (QTY 8 - 5L Drums I QTY 4 - 10L Drums I QTY 1 - Stretch Lid, Stumpy Lid, Utility Lid and Premium Hand Pump in each color (Red, Blue, Mid-Green, and Yellow) I QTY 1 - G5S1N Desiccant Breather I QTY 1 - 4/case Replacement

POLYSYSTEM™

Eliminate messes, minimize contamination risks, and take control of your fluid management with the PolySystem—a fully assembled, cost-effective, poly tank bulk fluid storage and dispensing solution. Engineered for clean, safe, and organized operations, PolySystem protects fluid integrity while maximizing operational efficiency. Each tank is equipped with a dedicated pump and filter to eliminate cross-contamination—ensuring clean fluids reach your equipment.

- **Cost-Effective** – High-quality, budget-friendly system
- **Configurable** – 80 Gallon (303 L) and 120 Gallon (454 L) tank configurations
- **Space-Saving Design** – Stackable tanks with a compact 46"W x 36"D footprint
- **Durable, Rust/Corrosion-Free Construction** - High-density polyethylene (HDPE) tanks for optimum surface clarity, UV stabilization, and high environmental stress crack resistance (ESCR)
- **Certified Quality** - ULC/ORD-C142.14 - Non-metallic Bulk Containers for the Storage and Dispensing of Combustible and Non-combustible Liquids included in first addition of ANSI/CAN/UL-2152:2021, Special Purpose Non-metallic Containers and Tanks for Specific Combustible or Non-combustible Liquids I NSF 51 meet or exceed FDA Regulation 21 CFR 177.1520 (2) 3.1 for use in contact with food, subject to any limitations of the regulations

PART #	PRODUCT DESCRIPTION
889210	Single 80g – AIR 80 Gallon (303 L)
889211	Dual 80g/80g – AIR 80 Gallon x 80 Gallon (303 L x 303 L)
889212	Dual 80g/120g – AIR 80 Gallon x 120 Gallon (303 L x 454 L)
889213	Single 120g – AIR 120 Gallon (454 L)
889214	Dual 120g/120g – AIR 120 Gallon x 120 Gallon (454 L x 454 L)

Optional Add-ons: Spill Containment Pan

- 881150 - 150g
- 881203 - 203g

NOTE: 55 Gallon Drum not included.

55 GALLON DRUM WORK STATION

The OILSAFE 55 Gallon Drum Work Station delivers best practice contamination control for 55 Gallon Drums in a modular, ergonomic and space efficient form:

- Positive displacement Gear Pump (3-5GPM) with internal bypass
- 2-way filtration (discharge and re-circulate "kidney-loop")
- Comes standard with 7µ, β2000 Spin on filter (4µ and 25µ also available)
- Desiccant Air Breather for Drum ventilation integrity
- Stainless Steel Dispensing Console with drip pan
- Electronic Stop/Start buttons
- Dedicated Stainless/PVC Suction Spear/Hose for Drum
- Hose Assembly with quick connects
- Delivered pre-assembled and ready-to-use
- Size: 14"(w) x 24"(d) x 65"(h)
- Drum can be placed on any standard Drum Deck/Spill Pallet for SPCC Spill Compliance if required

PART #	MOTOR	VISCOSITY RATING
894500	TEFC 110V / 14A	≤ ISO 680
894520	TEFC 240V / 10A	≤ ISO 680
OPTIONAL	Air	≤ ISO 680

TOTE DISPENSING RACK

The OILSAFE Tote Dispensing Rack delivers best practice contamination control for common 300 Gallon Totes in a modular, ergonomic and space efficient form.

- Positive displacement Gear Pump (3-5GPM) with internal bypass
- Retractable Hose Dispensing Reel (25 feet) with Trigger Dispenser
- Comes standard with 7µ, β2000 HP Filter with DP Indicator (4µ and 25µ also available)
- Electronic Stop/Start buttons
- Rack will accommodate Totes with base dimensions less than 41"(w) x 46"(d)
- Delivered pre-assembled and ready-to-use
- Additional Spill Pans available to expand Spill Pan capacity if SPCC Compliance is required

PART #	MOTOR	VISCOSITY RATING
894600	TEFC 110V / 14A	≤ ISO 680
894620	TEFC 240V / 10A	≤ ISO 680
OPTIONAL	Air	≤ ISO 680

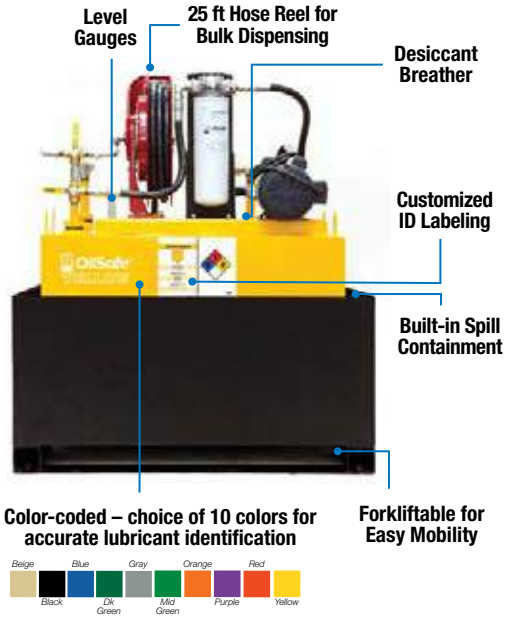
NOTE: Tote is for illustration purposes only and not included.

USED OIL SKIDS

Provide a collection point for used oils. Each system is housed in a spill containment pallet and includes:

- ½" male quick connect for transferring the oils into the tank
- Funnel for pouring oils in and draining out filter elements
- 4 leveling feet with forklift & pallet jack accessibility
- Identifiable white tank with a level indicator and 1-1/2" camlock access for bulk truck servicing

PART #	SKID SIZE
894400	120 gallon Used Oil Skid
894401	240 gallon Used Oil Skid



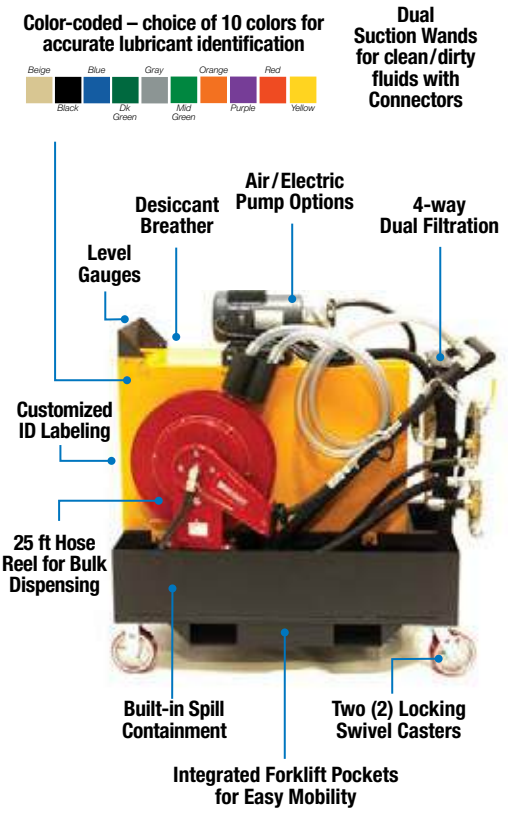
BULK FLUID TRANSFER SKIDS

Mobilize your fluids by transferring them safely utilizing an OilSafe Transfer Skid.

- 4-way filtration (fill, dispense, kidney loop & offline filtration capable
- Available in two tank sizes (120 gal and 240 gal)
- Built-in spill containment
- Integrated fork lift pockets provides easy and safe mobility via lift truck or pallet jack
- Pneumatic or Electric Pump options
- Standard 25µ Beta 2000 Spin-on-Filter for filling and dispensing
- 25-ft Fluid Hose Reel
- MSHA accepted 811HT rated flame resistant Fire Suppression Hose Assembly
- Desiccant Air Breather ensures cleanliness by removing airborne contaminants and moisture build up
- Delivered pre-assembled and ready-to-use
- Available in OilSafe's 10 standard colors, and customized labeling for best in class fluid identification

PART #	SKID SIZE
894700	120 gal Fluid Transfer Skid
894701	240 gal Fluid Transfer Skid

240 gal. Fluid Transfer Skid



ADVANCED FLUID HANDLING CART

Maximize your equipment functionality with OilSafe's Advanced Fluid Handling Cart.

- Maximum functionality
  - Store fluids
  - Bulk fluid transfer
  - Off-line filtration
- 4-way Dual Filtration (4µ, 7µ, 25µ Beta 2000 filters available)
  - Filling
  - Recirculate / Kidney Loop
  - Dispense
  - Off-Line
- Quick connects provide clean, secure connections
- 25-ft Hose Reel with high flow Dispensing Gun (Metering Gun upgrade available)
- Built-in spill containment
- Integrated forklift pockets for safe and quick mobility
- Air or Electric pump options available
- Available in OilSafe's 10 standard colors, and customized labeling for best in class fluid identification

PART #	SKID SIZE
894765	65 gal Advanced Fluid Handling Cart

BREATHER ADAPTERS

Adapter Kits are available in dark gray and configured with Colorized Quick Connects* and are available in 10 OilSafe colors or silver, no Quick Connects or Iso-b Quick Connects. Adapter Kits allow breathers to be installed on any storage tank, drum, hydraulic fluid tank, reservoir or gearbox.

DRUM ADAPTER KIT

There's never been a cleaner, more effective way to store, filter and pump lubricants from a drum. The unique design ensures all fluid handling is managed through dedicated adapters.

HYDRAULIC RESERVOIR ADAPTER KIT

The aluminum adapters have quick connects in two sizes - 3/4" suction for pump oil in and 1/2" return for pump oil out for pumping oil in and out, allowing the system to remain closed to the environment at all times.

GEARBOX ADAPTER KIT

Oil can be pumped in or out without opening the gearbox to atmosphere. Offline filtration, and oil changes and sampling can be handled through the adapter.

DOMED FLANGE ADAPTER PART # 095A114DG

Domed Flange Adapters provide a low profile yet rugged way to mount a 1" NPT desiccant breather to a hydraulic reservoir.

Adapter Kit Part # Configuration:

Adapter Styles

Drum Adapter = 960
Hydraulic Reservoir Adapter = 961
Gearbox Adapter = 962

+ Quick Connect Size

COLORIZED QUICK CONNECTS

Offer a flexible, durable and safe hose interface for use with lubrication management equipment. Manufactured from anodized aluminum, then color-coded, these connects are specially designed to eliminate cross-contamination once and for all. They are available in 10 familiar OilSafe colors* or silver to easily identify fluid contents and set the bar with an error-proof/exclusive fit. Only two terminals of the same color can fully connect making cross-contamination impossible. Our OilSafe Quick Connects keep your machinery and fluids lasting longer while maintaining a safe work environment with precise and secure connections that eliminate leaks, spills and waste. Max Operating Pressure 1,000 psi. Service Temperature 80ºC/176ºF.

*Colorized quick connects have been inspected to ensure anodized colors are within OilSafe color spectrum scope. Color and shade can vary on anodized components, this will not impact performance of product.

OilSafe

Desiccant Breathers and Modular Options

Air Sentry Series breathers have set the standard for contamination control breathers since 1997, with state-of-the-art features that reduce particulate and moisture contamination. The breather lines integrate check valve technology and offer replacement cartridges, significantly reducing maintenance costs.

The clear acrylic tube makes it easy to inspect the condition of the color-changing silica gel from a distance. The silica gel turns from gold to dark green to visually indicate the adsorption of moisture and confirm the breather is getting the job done.

GOOD

D-SERIES

Disposable and for Stationary Applications

- Storage Tanks
- Fluid Reservoirs
- Transformers
- Pumps
- Gearboxes

D-Series breathers feature numerous models in a variety of sizes, all designed to satisfy the requirements of most stationary fluid management applications. The breathers provide application flexibility by using 100% silica gel for moisture adsorption, 100% activated carbon for fume and odor control or both, when necessary. All D-Series models feature 2-micron solid particle filtration and are available with airflow ratings of 20 cfm. The D-Series is constructed of industrial grade raw materials, tested to ensure a wide range of chemical compatibilities, and features high impact resistant ABS top and bottom caps.

MODEL	HEIGHT	DIAMETER	MOUNTING CONNECTION	SILICA GEL	MAXIMUM ADSORPTION CAPACITY	MAXIMUM AIR FLOW	MAXIMUM RESERVOIR FLUID FLOW	TYPE OF MEDIUM	PART #

GOOD

Z-SERIES

Limited Space Applications

- Gearboxes
- Drums
- Totes
- Small Oil Containers

Z-Series breathers are designed for applications where space is limited or air flow requirements are lower than 5 cfm. The Z-Series is typically used on gearboxes and low fluid volume applications where mounting space is limited or where a larger breather won't fit without remote mounting.

MODEL	HEIGHT	DIAMETER	MOUNTING CONNECTION	SILICA GEL	MAXIMUM ADSORPTION CAPACITY	MAXIMUM AIR FLOW	MAXIMUM RESERVOIR FLUID FLOW	TYPE OF MEDIUM	PART #
Z-134	3.25 in. 8.3 cm	3.25 in. 8.3 cm	1/2" FNPT	0.5 lbs 0.2 kg	3.06 fl oz 90 mL	5 cfm	37 gpm	100% Silica Gel	095Z134

BETTER

X-SERIES

High Humidity/High Dust Applications

- Paper Mills
- Wash-Down Areas
- Steam-Cleaning Rooms
- Mine Quarries

X-Series Breathers are the perfect solution for high humidity and high dust environments. To extend the desiccant's life, the X-Series incorporates two check valves and a reusable top cap. The check valves provide a closed system until airflow is required, extending the service life of the desiccant.

MODEL	HEIGHT	DIAMETER	MOUNTING CONNECTION	SILICA GEL	MAXIMUM ADSORPTION CAPACITY	MAXIMUM AIR FLOW	MAXIMUM RESERVOIR FLUID FLOW	TYPE OF MEDIUM	PART #
X-102	10 in. 25.4 cm	5 in. 12.7 cm	1" slip fit	2.7 lbs 1.2 kg	16.56 fl oz 489 mL	20 cfm	150 gpm	100% Silica Gel	095X102

X-100 WASH DOWN CAP
Part # 095X100DC

This cap is compabitble with the X-100 breather model and serves as a protective barrier for use in environments where equipment wash down is frequent, and dust is present.

BETTER

R-SERIES

High Vibrations Applications

- Cranes
- Railroad Equipment
- Farm Implements
- Construction Vehicles
- Off-Road Trucks

Most heavy equipment—productive and on the move—are outfitted with hydraulic fluid tanks or reservoirs that breathe in the dirty outside air. R-Series breathers are ideal for these high-vibration, mobile applications, including off-road, construction and farm vehicles. R-Series desiccant breathers easily mount in place of standard breather caps via rugged steel pipe threads and a reusable metal base. When the gold silica gel cartridge turns dark green, simply install a new replacement cartridge to keep things moving.

MODEL	HEIGHT	DIAMETER	MOUNTING CONNECTION	SILICA GEL	MAXIMUM ADSORPTION CAPACITY	MAXIMUM AIR FLOW	MAXIMUM RESERVOIR FLUID FLOW	TYPE OF MEDIUM	PART #

BETTER

XR-SERIES

Extreme Environment Applications

- Wind Mills and Turbines
- Mobile Equipment
- Mining Equipment

XR-Series breathers are designed to perform in any extreme environment where protection from dust, moisture and vibration is critical. These breathers include a metal reinforced base, available with male NPT threads to adapt to your equipment. The base is designed to handle the rigors of high-vibration applications. The top cap uses two check valves to prevent outside moisture and solid contaminants from entering the breather until there is a need for airflow. The modular design allows for economical replacement of the desiccant cartridge.

MODEL	HEIGHT	CHECK VALVE PSI IN/OUT	DIAMETER	MOUNTING CONNECTION	SILICA GEL	MAXIMUM ADSORPTION CAPACITY	MAXIMUM AIR FLOW	MAXIMUM RESERVOIR FLUID FLOW	TYPE OF MEDIUM	PART #

GUARDIAN

Ideal for All Applications

GUARDIAN, Air Sentry's established breather series, features an isolation check valve that keeps exhaust air from depleting the desiccant and protects from volatile fumes and splashing fluids. The GUARDIAN's casing is constructed from Tritan,® a patented material highly resistant to impact and chemicals with a broad range of operating temperatures. These unique features equate to a longer life for your breather and your equipment.

GUARDIAN MODULAR OPTIONS

HIGH-CAPACITY AIR FILTER

Part # 095G5HC1N

Can be used with a desiccant cartridge or as a standalone particle filter. Its 0.3-micron HEPA filter is 99.97% efficient. Ideal for extremely dirty/dusty environments.

MODULAR STACKABLE RING

Part # 095GMSR

Stack cartridges to extend the life of breathers even further using the Modular Stack Ring.™ This proprietary feature lengthens the GUARDIAN's service life, reducing cost and maintenance intervals.

SHIELD WASH-DOWN CAP

Part # 095GSWDC

The cap acts as a barrier where equipment wash-down happens frequently. This prevents direct spray from opening check valves in the top cap.

INTEGRATED COMPOUND VACUUM/PRESSURE GAUGE

Part # 095A655

This proprietary feature is a true-life accurate indicator of filter conditions.

Storage Cabinets and Heavy-Duty Mobile Work Center

Instantly organize your lubricant and equipment area with these high quality, workshop ready storage

PART # 930020 – Work Shop Large Storage Cabinet

HEAVY-DUTY MOBILE WORK CENTER

48"w x 18"d x 38"h with drawers -
PART # 930205 (Available in Gray ONLY)

HIGHLIGHTS

- **Removable** plastic parts bins easily clip on and off internal racks and **increase storage capacity and speed** for small parts selection
- **Adjustable shelving options for storage flexibility**
- **High quality** door handle with lockable features for added security - Medium Cabinet and Large Work Shop Cabinet include a stainless steel handle with key lock. Large Cabinet includes a cast handle in yellow with pad-lockable feature. **Lockable Stainless Steel Handle**
- **Lockable Stainless Steel Handle**
- **All welded, high quality 14 – gauge steel construction,** suitable for storage of your top up lubricant containers and lubrication equipment in the shop. No code rating is required for this lubricant storage capacity and application.
- Cabinets shipped **fully assembled and ready to use**

CABINETS - SPECIFICATIONS TABLE

FLUID SAFETY CABINETS

Ideal for fuels, solvents and lubricant storage. A perfect complement to your fluid management area.

FM Approved. Conforming to NFPA Fire Code No. 30, OSHA standards and with adjustable shelving that adjusts on 4" centers, this versatile range of cabinets can be modified to suit your current and future requirements.

BUILT-IN QUALITY

- **Constructed of 16-gauge steel** with reinforced double walls
- **All-welded, reinforced double wall construction** (with 1-1/2" of insulating air space to offer fire resistant protection)
- **Leak proof** 2" pan bottom prevents leakage from accidental spills
- **Heavy gauge galvanized steel** shelves hold up to 350 lbs

BUILT-IN SAFETY

- **Conforms** to NFPA Fire Code No. 30 and OSHA standards. FM Approved
- Doors include a **flush-mounted handle** with built-in key lock for added security
- **Self-closing safety doors** have fusible link that melts when ambient temperature reaches 160°, releasing the door latch allowing the doors to move to the closed position
- **Grounding wire** connections standard on all cabinets dissipate static electricity buildup
- **Screened flame arrester** vents on both sides of cabinet with 2" threaded fittings for external exhaust and with fire baffle and cap
- **Large warning labels** on every cabinet

BUILT-IN EFFICIENCY

- **Shelves adjust** on 4" centers to maximize storage versatility
- Four adjustable zinc plated leveling legs
- Other cabinet sizes and configurations available

SPILL CONTROL

Spill Decks & Pallets 67

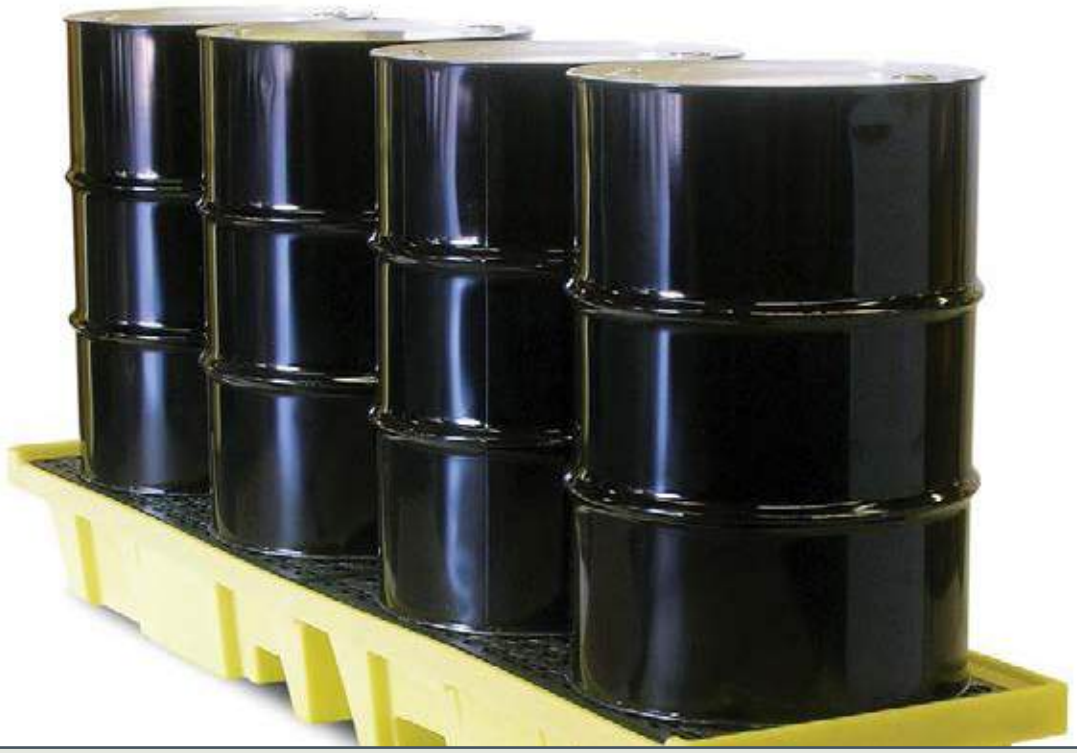
Designed with efficiency in mind, keep your employees and work environment safe from unexpected drum spills or leaks.

Ramps 68

For safe walk-ups and easier loading.

Spill Decks & Pallets

Designed for workplace efficiency, keeps employees and work environments safe from unexpected drum spills or leaks.



SPILL DECKS

Eliminate the worry of incidental spills on your facility floor. Spill Decks are easy to load with a low profile design and optional ramp. Each Spill Deck is designed for stand alone use or can connect with other Spill Decks for a customized work area.

- Large sump capacity catches incidental spills
- Low-profile Spill Decks become part of your factory floor, optimizing space for increased safety and efficiency. Makes drum loading a snap.
- Tough,one-piecepolyethyleneconstructionwillnotrustorcorrode
- Multi-Purpose Work Ramp hooks onto any Spill Deck for easy loading
- Heavy-duty removable structural foam grates for easy cleaning
- Rolled-edge design helps resist cracking & warpage

RAMP - 6"

PART # 450315

For easier loading, just hook this Ramp onto any of our Spill Decks. Small enough to stay out of your way.

SPILL PALLETS

These secondary containment systems are engineered to meet the rigors of today's regulatory environment.

Raised edges on back and sides helps orient barrels on the pallet. Made from 100% polyethylene, these Spill Pallets provide excellent chemical resistance. All units are forklift-able and have removable grates for easy cleaning. Includes drain and plug.

2 Drum

4 Drum - In Line

4 Drum - Slim Line, Low Profile Square

IBC SPILL PALLET

Intermediate Bulk Containment made easy.

This IBC Spill Pallet gives intermediate bulk container users more versatile spill containment. It fits more than 99% of all IBC dispensing units and features a large sump capacity of 385 gallons, exceeding EPA regulations! This unit also has an integrated 5 gallon pail holder for quick and easy dispensing. Optional drain with plug available.

- Forkliftable & Nestable for convenient shipment and storage
- 100% polyethylene construction will not rust or corrode or have adverse reactions with chemicals

Typical installations for IBC tank.

RAMP - 8"

PART # 450555

Designed for use with 450614-LP spill pallet.

- Ribbed, non-skid surface for safe walking
- 10° ramp slope
- 100% polyethylene construction
- **Dimensions:**
  45.4" l X 32" w X 7.75" h
  115 cm x 81 cm x 19.69 cm
- **Weight:**
  65 lbs. / 29.5 kg
- **Handling Capacity:**
  1000 lbs. / 453.6 kg

RAMP EXTENDER

PART # 450316

Designed for use with 450316 ramp and 450614-IL spill pallet.

- **Dimensions:**
  29.5" l x 8.5" w x 5.5" h
  74.93 cm x 21.59 cm x 13.97 cm
- **Weight:**
  6 lbs. / 2.7 kg
- **Handling Capacity:**
  1000 lbs. / 453.6 kg

900480	GFP Label Kit - Frequency - Daily	33
900481	GFP Label Kit - Frequency - Weekly	30 & 33
900482	GFP Label Kit - Frequency - Monthly	33
900483	GFP Label Kit - Frequency - Quarterly	33
900484	GFP Label Kit - Frequency - Semi Annually	33

PART NUMBER INDEX

Part #	Description	Page
900485	GFP Label Kit - Frequency - Annually	33
900901	Grease Fitting Protector Kit - 1/4" (6.4mm) 3 Color - 240pc	23 & 39
900902	Grease Fitting Protector Kit - 13/32" (10.5mm) 3 Color - 240pc	23 & 39
900903	Grease Fitting Protector Kit - 17/32" (13.5mm) 3 Color - 240pc	23 & 39
900911	Grease Fitting Protector Kit - 1/4" (6.4mm) 3 Color - 60pc	23 & 39
900912	Grease Fitting Protector Kit - 13/32" (10.5mm) 3 Color - 60pc	23 & 39
900913	Grease Fitting Protector Kit - 17/32" (13.5mm) 3 Color - 60pc	23 & 39
900921	Grease Fitting Protector Kit - 1/4" (6.4mm) 6 Color - 240pc	23 & 39
900922	Grease Fitting Protector Kit - 13/32" (10.5mm) 6 Color - 240pc	23 & 39
900923	Grease Fitting Protector Kit - 17/32" (13.5mm) 6 Color - 240pc	23 & 39
900931	Grease Fitting Protector Kit - 1/4" (6.4mm) 6 Color - 60pc	23 & 39
900932	Grease Fitting Protector Kit - 13/32" (10.4mm) 6 Color - 60pc	23 & 39
900933	Grease Fitting Protector Kit - 17/32" (13.5mm) 6 Color - 60pc	23 & 39
920000	Nitrile O-ring Kit - Lid Seal	12
920001	Nitrile O-ring Kit - Mini Spout Lid	12
920002	Nitrile O-ring Kit - Stretch Spout Lid	12
920003	Nitrile O-ring Kit - Stumpy Spout Lid	12
920004	Nitrile O-ring Kit - Stretch Hose Extension	12
920005	Nitrile O-ring Kit - Stumpy Hose Extension	12
920006	Nitrile O-ring Kit - Pump Sleeve	12
920007	Viton® O-ring Kit - Premium Pump	12
920100	Viton® O-ring Kit - Lid Seal	12
920101	Viton® O-ring Kit - Mini Spout Lid	12
920102	Viton® O-ring Kit - Stretch Spout Lid	12
920103	Viton® O-ring Kit - Stumpy Spout Lid	12
920104	Viton® O-ring Kit - Stretch Hose Extension	12
920105	Viton® O-ring Kit - Stumpy Hose Extension	12
920106	Viton® O-ring Kit - Pump Sleeve	12
920200	Spout Valve Kit - Mini Spout	12
920201	Spout Valve Kit - Stretch Spout	12
920202	Spout Valve Kit - Stumpy Spout	12
920203	Spout Valve Kit - Air Breather	12
920204	Cap - Utility Lid	12
920205	Extension Sleeve - Pump	12
920206	Pump Hose - 5 ft - with Hook Outlet	11
920207	Pump Hose - 10 ft - with Hook Outlet	11
920208	Pump Hose - 5 ft - with 1/4" NPT Male Fitting	11
920209	Pump Hose - 10 ft - with 1/4" NPT Male Fitting	11
920220	Premium Pump quick connect Kit - 5 ft hose	11
920225	Premium Pump quick connect Kit - 10 ft hose	11
920250	Premium Pump Breather - 10 micron	11
920255	Premium Pump Breather - 3 micron	11
920260	1/4" NPT Male Premium Pump Adaptor	12
920300	Collar - Premium Pump - Beige	12
920301	Collar - Premium Pump - Black	12
920302	Collar - Premium Pump - Blue	12
920303	Collar - Premium Pump - Dark Green	12
920304	Collar - Premium Pump - Gray	12
920305	Collar - Premium Pump - Mid Green	12
920306	Collar - Premium Pump - Orange	12
920307	Collar - Premium Pump - Purple	12
920308	Collar - Premium Pump - Red	12
920309	Collar - Premium Pump - Yellow	12
930005	Storage Cabinet - Medium	64
930010	Storage Cabinet - Large	64
930020	Work Shop Large Storage Cabinet	64
930205	Heavy-Duty Mobile Work Center with drawers	64
930500	Fluid Safety Cabinet - Manual - 30 gal.	65
930510	Fluid Safety Cabinet - Manual - 45 gal.	65
930520	Fluid Safety Cabinet - Manual - 60 gal.	65
930700	Fluid Safety Cabinet - Self Closing - 30 gal.	65
930710	Fluid Safety Cabinet - Self Closing - 45 gal.	65
930720	Fluid Safety Cabinet - Self Closing - 60 gal.	65
950000	Lever Action Barrel Pump	13
950020	Rotary Barrel Pump	13
950150	Drum Opener	13

Part #	Description	Page
957750-NF1	Portable Filtration Cart - One Filter - BASIC	54
957750-NF2	Portable Filtration Cart - Two Filters - BASIC	54
957700-PRO	Stationary (Wall Mount) Filtration Unit - PRO	54
